## Attention Employers

Do you often wonder if choosing an employee could be made easier?

I use the ancient teachings of Pythagorean Numerology to reveal a prospective employee's suitability -

- \* their natural tools and talents,
- \* how they operate in the work place,
- \* are they suited for a manual skills job?
- \* are they suited for administration?

I have 22 years experience with this. The investment for you is \$147.

You will receive a detailed written report that may help you make your decision much quicker and easier.
