**Subject: Sea Change**

For the majority of my working life I have worked for myself and in recent years I have also been supported by some retail positions which I have enjoyed.

However, I feel a need to be of a different service, and therefore I am asking you if you would reply and let me know if what I am passionate about would be of value to you.

- I have studied Numerology for over 25 years and **I love supporting people on their journey within** by either doing a chart and a reading for them or by by them attending my classes to learn. I now also incorporate Face Readings;
- I practise the art of Reiki, am a Reiki master for over 25 years, and have recently begun to use the **support of Quantum Healing Energy**;
- I am passionate about showing women how they can trade in their toxic skin and body care for an **Organic tried and tested pure alternative**;
- As a result of my own improvement in health, I like to introduce people to Organic Superfoods which took me from a 40 year illness that could not be diagnosed and within 7 months I did not have any more symptoms, **and still dont!**
- **Would you like to know how? Please look at my Story on my [website](#)**

**All of the above have been life changing for me, and they will be for you.**

Please let me know which of the above interests you. Most of them I can do over the phone or internet and depending on where each of us live in distance to each other, I can also do one to one in my or your own home .

I am looking forward to hearing from you and to finding out what may interest you and your friends best.

L Jo
